For computation of all the above disclosures the following has been considered

- I) Total Liabilities means total assets less equity capital and other equity
- II) Total Asset means total asset side of balance sheet.
- III) Borrowings have been considered at their carrying value.

f Institutional set up for liquidity risk management

The Board of Directors has the overall responsibility of managing risk related to Asset Liability mismatches, including liquidity risk and market risk. The Board has constituted Asset Liability Management Committee ('ALCO') to identify & monitor the liquidity, market and foreign exchange risks from time to time.

The Company's ALCO monitors asset liability mismatches to ensure that there are no imbalances or excessive concentration on either side of the Balance Sheet, in accordance with the liquidity thresholds/limits decided by the Board. The ALCO is comprised of MD and other senior management to enable effective ALM risk management strategy of the Company.

The Company has a Board approved Asset Liability Management Policy, defining the liquidity risk management framework in line with RBI's guidelines on liquidity framework for NBFC's which ensures that the Company maintains sufficient liquidity in line with the risk appetite framework.
